The word ***MuSifanto*** combines the muses and music with Sifanto, one of the old names for Sifnos.

The Festival is aimed at becoming an established musical event on the island so that islanders and visitors alike, being aware it will be held every July, can participate on a steady basis and come into contact with distinguished world famous artists in a unique natural environment. These artists believe in the value of musical education and the importance of artistic communication and wish to contribute to the creation and development of a musical community in which they would be partners and for whose members Sifnos would become a summer "home" of artistic inspiration, open to their musical propositions.

At the same time, the students of the Sifnos Music Workshop will be given the opportunity to have lessons with prominent musicians, hear them play at their own recitals and be inspired by their example, allowing them to pursue the study of music in a constructive and efficient
